Questions 16 and 17

Read the passage carefully and answer the questions that follow.

Dear Diary,

Yesterday was the best day ever. It was my 11th birthday. It was a double celebration because this year, my birthday was on the first day of *Raya*. I had the biggest birthday cake ever. We had ketupat and rendang.

This year I celebrated *Hari Raya* at my village. I was so happy to celebrate my birthday with all my cousins. I was still sleeping when grandma and grandpa yelled "Happy Birthday, Razman!". I was too shocked and fell off my bed. My uncle aunt gave me an extra packet of *duit raya*. My grandma made homemade *dodol* using her pressure cooker. She was excited as it only took her 90 minutes to make the *dodol*. She used to make dodol outside the house for 8 long hours. I love grandma's homemade *dodol*. It's delicious.

16 It was a double celebration during Hari Raya because…

A all relatives got together

B It was Razman's birthday

C It was the first day of Raya

D grandma cooked special food

17 Razman's favourite food is…

A *rendang*

B *ketupat*

C *dodol*

D cake

Questions 18 to 20

Read the story and answer the questions that follow.

Frogs and toads are amphibians. They can live on land and water. The female lay their eggs in water. The eggs are contained in a jelly-like substance called frogspawn. These eggs hatch into tadpoles. They can only live in water. They have a head, body and tail. They move using their tail. When the tadpoles grow bigger, their tails will shrink and legs will grow.

Frogs and toads eat small creatures such as insects and worms. They use their long tongues to catch their pray. When an insect comes near, the frogs will flick out its tongue at great speed. The insect will not be able to escape as the tip of the tongue is sticky.

Toads and frogs have unique characteristics. They do not drink water. They fill up their body with water through their skin. They do this while swimming in water. That is why you can find frogs and toads in rivers, streams, and ponds

18 What are amphibians?

A Animals that only eat insects.

B Animals that lay eggs in water.

C Animals that live on land and in water.

D Animals that lives in rivers, streams and ponds.

19 How does a frog catch its food?

A With its tail

B With its legs
