The invention of mobile phones has changed the world completely. Today, we cannot imagine any human activity which does not involve mobile phones. They have completely 1. \_\_\_\_\_ our communication, business and entertainment activities. They help us do many things which we could not 2. \_\_\_\_\_ a few years ago like making video calls and conducting bank transactions. Modern mobile phones have many 3. \_\_\_\_\_ like clock, calculator, camera and calendar which make many of the traditional equipment obsolete. They help us to communicate with people in 4. \_\_\_\_\_ areas with the help of satellites. They also 5. \_\_\_\_\_ our lives by bringing news, information and entertainment whenever and wherever we like.
