

## Reading Comprehension

### 7 Look, read and write T (true) or F (false).

There were many different kinds of dinosaurs. They were different sizes. The biggest dinosaurs were over 30 metres long and up to 15 metres tall. The smallest dinosaurs were about the size of a chicken. Some dinosaurs walked on four legs, and some walked on two. Most dinosaurs ate plants, but some ate meat.

The dinosaurs lived on Earth for over 165 millions years. They became extinct 65 million years ago.

Compsognathus  
- the smallest dinosaur

Supersaurus  
- the biggest dinosaur

- 1. Dinosaurs were mammals.
- 2. They lived on earth for over 156 millions years.
- 3. Supersaurus was the biggest dinosaur.
