READING

1. Read the text and choose A (True) or B (False).

Two young musicians

Frank and Jimmy are music students. They live in the same house and they are good friends but they like very different kinds of music.

Frank comes from a family of musicians. His father is the conductor of one of England's top orchestras and his stepmother gives lessons in classical guitar. Frank is studying classical music. He can play the violin very well and he's also learning the viola. He practises every evening and sometimes he plays for three or four hours. He also loves listening to classical and modern tango. He plays the violin in a modern tango group called Tangota. Tangota plays once a month at a small nightclub.

Jimmy is doing a university course in pop music. He likes listening to many kinds of music. He listens to relaxing music when he's stressed, he listens to jazz when he's tired, and when he's in a really good mood he listens to reggae or rock music. He loves going to concerts but he doesn't have a lot of money, so he sometimes goes to concerts. Jimmy's a big fan of Tangota but he doesn't like listening to Frank's violin every evening when Frank is practising, so he listens to loud music on his headphones. Jimmy also plays in a band. It's a rock band called Happy Sunday. They usually get together once a week to practise. Jimmy's friend has a club and the band can practise there in a large room upstairs. At the moment, Jimmy's band is making an album.

Example: Frank and Jimmy are cousins.

A True **B False** ✓

1 Frank plays the violin in a classical tango group.

A True B False

2 Frank can play one musical instrument.

A True B False

- 3 Frank's group is making an album.
