

DIETS AND DISEASES ACTIVITY

Insert Name:

HELLO STUDENTS MY
NAME'S DETECTIVE BERT
HELP ME TO ANSWER THE
FOLLOWING QUESTIONS AND
DISCOVER THE IMPOSTER
AMONG US!

INSTRUCTIONS

Using your notes and online resources, answer ALL of the following questions.

There are three sections:

1. Short answer
2. Matching
3. Drop down selection (Among us role play game)

SHORT ANSWER

Watch the following video and then answer the questions below:

Diet-related diseases are chronic illnesses that occur from poor eating habits. There are several common diet-related diseases, this includes; Diabetes, Hypertension, High Cholesterol, Heart Disease, Constipation and Diverticular disease.

ANSWER THE FOLLOWING QUESTIONS

1. What does the term chronic mean? (1)
2. According to your notes how many chronic diet-related disease are there? (2)
3. List three other diet-related diseases that is not listed in your notes. (3)
4. According to the video what disease is found most among African Americans?(2)

5. In your own words describe how an individual becomes diabetic? (3)

6. List and describe the two types of diabetics. (4)

7. What is the term used to describe insulin? (1)

8. List four symptoms related to diabetes. (2)

Match each diet-related disease to the best description listed below. (1pt ea.)

Disease	Description
Diabetes	This occurs when there is too much fatty substances in the blood.
Hypertension	These are infections or inflammations that occur in the intestine.
High Cholesterol	This occurs after high blood pressure damages the artery.
Constipation	When there is not enough insulin produced in the body to distribute glucose in the cells and body
Diverticular disease	When the bowel movement becomes delayed or fewer than usual.

SIMILAR TO THE GAME, THERE ARE HUMANS AND IMPOSTERS. IN THIS CASE THE HUMANS REPRESENT DISEASES THAT ARE NOT DIET RELATED AND THE IMPOSTERS ARE DIET RELATED DISEASES.

LET'S FIND OUT WHICH IMPOSTER (DIET RELATED) KILLED THE HUMANS (NON DIET RELATED) (5PTS)

Who Killed Tasha?

Hey Team, I just want to say great job at completing all your task! But....has anyone seen Tasha!?

Flu: Hey Captain, I last saw her in the bathroom with Asthma... she been going there a lot lately! Maybe she drinks a lot of water. But, I'll look for her

Flu: CAPTAIN..CAP! I found her, but she's dead. We have an imposter(C.D) among us! It must have been Heart Disease because she said she felt weak!

H.D: Wait...! Let's think about this I wasn't even with her! Haven't you seen the weight she lost someone may have poisoned her!

You Killed Tasha!
