## I/ CHOOSE THE CORRECT ANSWER.

**1. Seeds germinate when they have right……...**

A. conditions B. substances C. flowers

**2. Part of a plant that can grow into new plant.**

A. fruit B. stem C. seed

**3. To take in a substance means "to absorb".**

A. True B. False C. A & C are wrong

**4. When a seed starts to grow, it germinates.**

A. True B. False C. A & C are wrong

LIVEWORKSHEETS

**5. Part of a seed that grows into a new plant.**

A. embryo B. seed coat C. food store

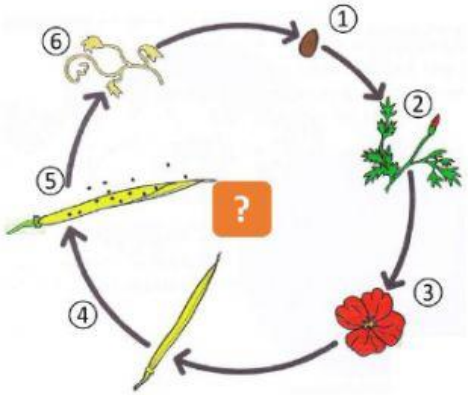

**6. To become small and very dry, means "to swell".**

A. True B. False C. A & B are wrong

**7. The outer cover that protects the seed is a seed coat.**

A. True B. False C. A & B are wrong

**8. What is it called?**

A. plant life circle B. plant life cycle C. life plant cycle

**9. What are the conditions for a plant development?**

A. light-water – air B. air-warmth- water C. light-water-air-warmth

**10. Provide energy for germination**

A. light B. food store C. water

**11. The process is carried out by animals, wind, water and explosions is called germination.**

LIVEWORKSHEETS

A. True B. False C. A & B are wrong

**12. The process is carried out by insects and wind is called fertilisation.**

A. True B. False C. A & B are wrong

**13. What happens when the male and female parts join?**

A. pollination B. fertilisation C. germination

**14. Which substance do insects and wind move in pollination?**

A. nectar B. eggs C. pollen

**15. Part of the flower forms the fruit is an ovary.**

A. True B. False C. A & B are wrong

**16. The different stages in a plant's life from when it grows from a seed until it makes its own seeds.**

A. seed dispersal B. life cycle C. germination

**17. Everything around us is called environment.**

A. True B. False C. A & B are wrong

**18. When a seed starts to grow, it absorbs water and swells.**

A. True B. False C. A & B are wrong

**19. The root is the first part of the new plant that starts to grow.**

A. True B. False C. A & B are wrong

**20. Seeds need water, …… and …… to germinate.**

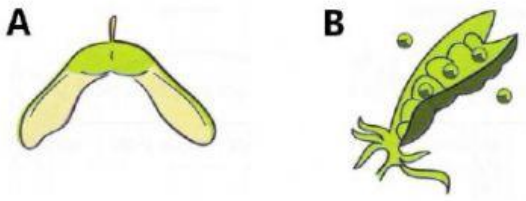

LIVEWORKSHEETS

A. air/ light B. warmth/ air C. warmth/ light

**21. Light is a ..... that plants need so that they can grow.**

A. factor B. condition C. environment

**22. The seed in picture A is spread by wind.**

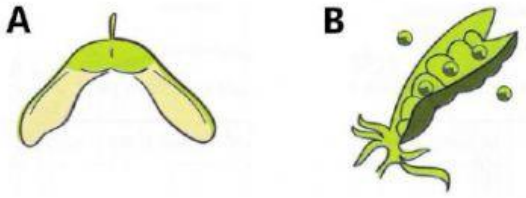

A. True B. False C. A & B are wrong

**23. Seeds are found in .....**

A. flowers B. roots C. fruits

**24. The seed in picture B is spread by wind.**

A. True B. False C. A & B are wrong

**25. Plants need ..... energy to make food in their leaves.**

A. heat B. water C. light

LIVEWORKSHEETS

**26. Which flower is pollinated by insects?**

A. A AND C B. A AND B C. B AND C

A.  B.  C. 

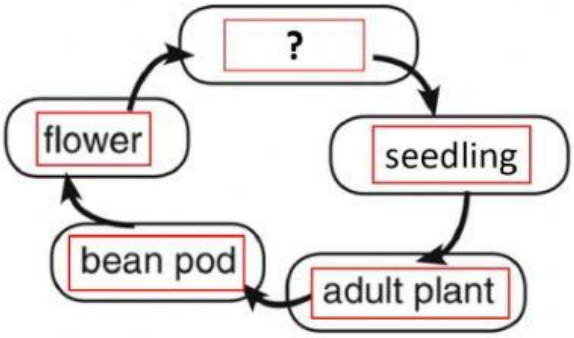

**27. Pollination brings pollen from the ..... to the ..... of the same kind of flower.**

A. stamen/ anther B. stigma/ stamen C. stamen/ stigma

**28. Bees, butterflies, beetles are called pollinators that pollinate flowers.**

A. True B. False C. A & B are wrong

**29. What stage is missing in the plant's life cycle below?**

A. flower

B. seeds

C. fruit

**30. The fruit in picture A is dispersed by water.**

LIVEWORKSHEETS

A. 

B. 

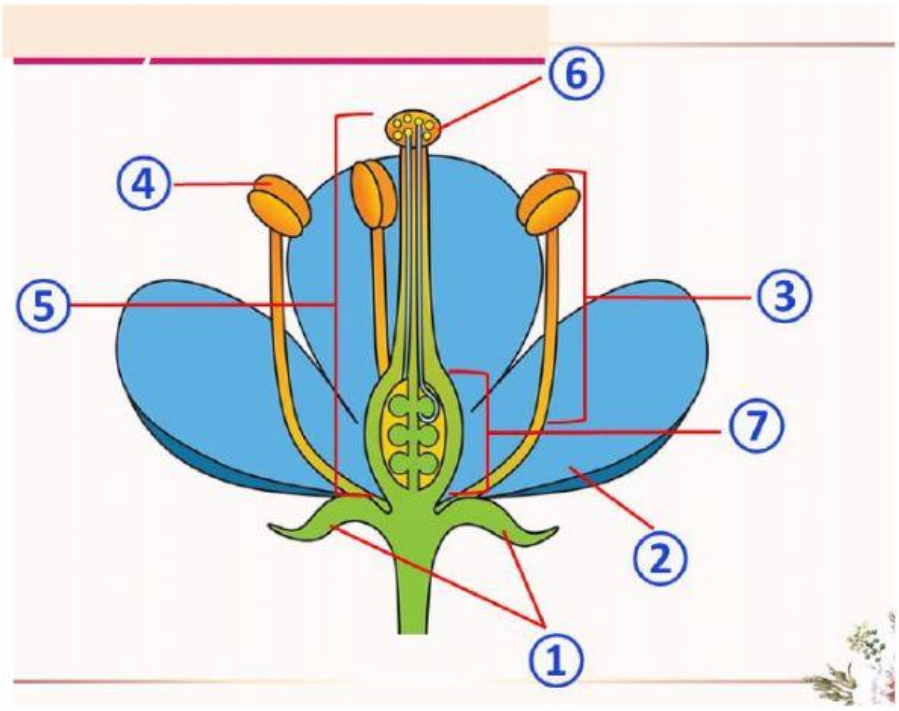

C. 

A. True

B. False

C. A & B are wrong
