

Operaciones combinadas

1. Calcula:

a) $10 + 6 + 4 \times 5$

Diagram for problem a) showing the order of operations with boxes and arrows:

Row 1:

Row 2:

Row 3:

Arrows indicate the sequence: from the 4th box to the 3rd box, from the 3rd box to the 2nd box, and from the 2nd box to the 1st box.

b) $3 \times 9 + 27 + 7$

Diagram for problem b) showing the order of operations with boxes and arrows:

Row 1:

Row 2:

Row 3:

Arrows indicate the sequence: from the 2nd box to the 1st box, from the 1st box to the 3rd box, and from the 3rd box to the 2nd box.

c) $9 \times 4 + 28 - 12$

d) $20 + 7 \times 4 + 2$

Operaciones combinadas

e) $10 + 6 + 4 \times 5$

f) $3 \times 9 + 27 + 7$
