

Simple Filter Model

Arrange the parts of the filter. Complete the diagram below by dragging the pictures correctly and writing its name.

The diagram shows a simple filter model. A blue plastic bottle with its bottom removed is inverted over a glass dish. To the right of the bottle is a vertical stack of four rectangular boxes. The top box is labeled "rocks". To the right of this stack is a small rectangular box containing a pile of grey gravel. Below the bottle and dish are four piles of different materials: rocks, sand, cotton, and gravel, each with a label underneath.
