## TURN IT OFF

A simple way to protect the environment is to remind yourself to “Turn it off”. What does that mean? When you leave a room, turn off the lights. When you’re done watching TV, turn it off. While you’re brushing your teeth, turn off the faucet. And if you’re waiting in a parking lot, ask the driver to turn off the car. These are great ways to save money. But they’re also great ways to save resources like electricity, water, and fuel, .... and that’s important. Do this every day because every day is Earth Day!
