The story of the carrot and the ring

Have you ever lost something that was precious to you, and thought you'd never see it again? That's what happened to Mary Grams from Canada.

Mary had worn her engagement ring for more than half a century when she suddenly lost it. She was working in her garden on the family farm one day, pulling out a plant. 21 When she discovered it was missing, she searched everywhere for it for days, before finally giving up.

- A. And that was probably when the ring came off her finger
- B. That gave her a very good idea about what to do with the carrot
- C. She was disappointed by that news

Mary realised she probably wasn't going to find the ring again. So she decided not to tell anyone about what had happened, apart from her son. Instead, she thought she would replace it with a much cheaper ring from a jeweller's. 22 In fact, it was so similar that no-one else in her family even knew her original ring was missing.

- A. That gave her a very good idea with the carrot
- B. That way, she made sure that nobody missed it
- C. Luckily, she managed to find another one that looked just like it

But the story has a happy ending. Mary eventually got her engagement ring back – 13 years after it was lost! One day Mary's daughter-in-law Colleen was working in the same garden where Mary had been all those years ago.

23 But this time it looked a bit different – because there was a carrot growing right through the middle of it!

- A. She was digging up vegetables when she discovered the ring
- B. She was cheerful with the news she heard
- C. It was tiring work, as some of them were very big

As soon as Colleen saw the ring, she knew immediately who the owner was. The farm had been in the family for over 100 years. So when Colleen discovered the story of the lost ring, it became clear there was only one person it could possibly have belonged to, and the ring was returned to Mary.

- A. It turned out to be the lost ring of the family
- B. And only two women had lived there in all that time
- C. She felt disappointed with what she found in the hole

Mary decided to remove her ring from the carrot and wear it again. Then the ring was washed, and Mary put it back on her finger – and it still fitted perfectly!

- A. So she carefully cut the carrot in half
- B. She probably imagined it was things like gold
- C. She decided to keep it and made sure she didn't miss it again
