## IV. READING

**Reading 1:** *Read the passage and choose True, False or Doesn't say.*

### Interview with Paul Mason

Last week Paul Mason, author of the novels *Silence*, *Who did it?* and *Go Away*, agreed to be interviewed by one of our journalists.

#### Lifestyle & Experience

I live in New York with my second wife and our three children. I wasn't always a writer. When I left school I got a job in a library. In my free time I read murder novels, but one day I decided to write one. I was lucky because people liked it. I earned a lot of money so I left my job at the library and began to write all the time. I get up at 6 a.m., go to the gym for an hour, then go to my office. I buy breakfast on the way and eat it while I check my emails. After I've answered my emails I start writing. I can easily spend 9 or 10 hours writing.

#### Tastes

After work I have dinner with my family. Sometimes we go out to parties or to the theatre, but most evenings I prefer to relax at home and listen to jazz or read. My favourite author is Agatha Christie and at the moment I'm reading a book she wrote about her life. My cat usually sits next to me while I read, and the rest of the family like to watch TV.

#### Places

One of my favourite places is Maine on the east coast. We have a small house near the beach. It isn't very far from Vermont, where we go skiing in the winter. In the summer, we usually go to Venice where my wife's family live. It's probably the most beautiful city I've ever seen. I stayed in Venice when I wrote my third book and that's where I learned to speak Italian and to play the guitar. I hope to buy a house there one day. Then I'd like to retire and learn to paint.

**Reading 2: Read the article and choose the best answer A, B, C or D.**

Elizabeth Blackwell was born in England in 1821, and emigrated to New York City when she was ten years old. One day she decided that she wanted to become a doctor. That was nearly impossible for a woman in the middle of the nineteenth century. After writing many letters seeking admission to medical schools, she was finally accepted by a doctor in Philadelphia. So determined was she, that she taught school and gave music lessons to earn money for her tuition.

In 1849, after graduation from medical school, she decided to further her education in Paris. She wanted to be a surgeon, but a serious eye infection forced her to abandon the idea.

Upon returning to the United States, she found it difficult to start her own practice because she was a woman. By 1857 Elizabeth and her 15 sister, also a doctor, along with another female doctor, managed to open a new hospital, the first for women and children. Besides being the first female physician and founding her own hospital, she also established the first medical school for women.
