

1. Listen to the song and choose the correct words in the lyrics.

It's beginning to **see/look/watch** a lot like Christmas
Everywhere **we/you/I** go
Take a look **in/on/to** the Five & Ten
Glistening **on/once/one** again
With candy **canes/cranes/chains** and silver lanes aglow

It's beginning to **see/look/watch** a lot like Christmas
Boys/Toys/Noise in every store
But the **prettiest/happiest/nicest** sight to see
Is the holly that will be **in/on/of** your own front door

A **set/couple/pair** of Hop-a-long boots and a pistol that shoots
is the wish **on/of/off** Barney and Ben
Dolls that **can/will/do** talk and will go for a walk
is the hope **on/of/off** Janice and Jen
And Mom and Dad can **barely/almost/hardly** wait for school to start again

It's beginning to **see/look/watch** a lot like Christmas
Everywhere **we/you/I** go
There's a tree in the Grand **Hospital/Hostel/Hotel**
One in the park **as well/also/too**

The sturdy kind that doesn't mind the **cold/snow/rain**

It's beginning to **see/look/watch** a lot like Christmas

Soon **some/the/a** bells will start

And the thing that will **do/make/have** them ring

Is the **song/tune/carol** that you sing

Right **inside/within/in** your heart

It's beginning to **see/look/watch** a lot like Christmas

Boys/Toys/Noise in every store

But the **prettiest/happiest/nicest** sight to see

Is the holly that will be **in/on/of** your own front door

Sure it's Christmas once **again/more/now**
