Revision

Match every sentence with its code:
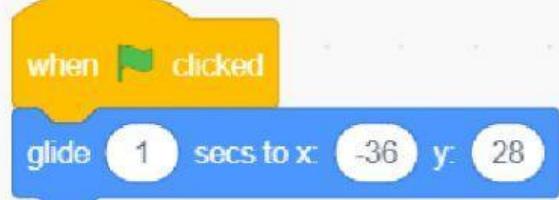

Any code inside me will be repeated infinitely.	when 🏳 clicked go to x: -36 y: 28
I will make the sprite walk to this position in one second.	forever
I can control your code to be run according to a certain condition.	when 🏳 clicked glide 1 secs to x: -36 y: 28
I will make the sprite change its position in the moment.	if ⬡ then
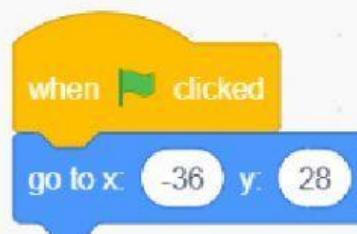

Think...
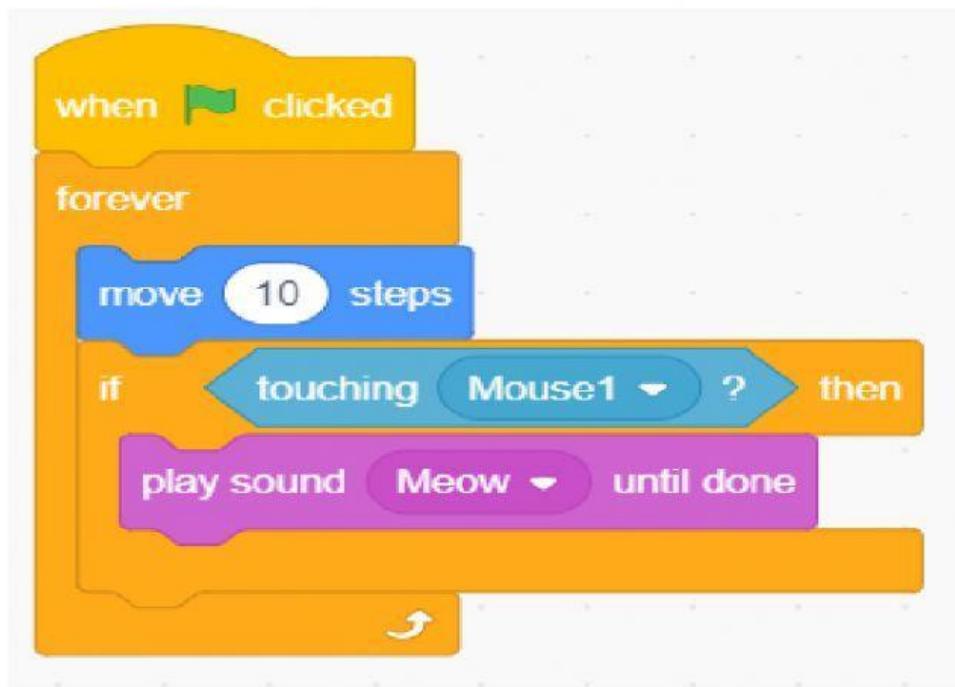

This algorithm is found in a cat code, what does it do?
