

UNIT 7: MATTER

The universe is made up of matter.

Matter is found in three different states:
SOLID, LIQUID AND GAS.

Matter cannot be created or destroyed; it just changes from one stage or form to another:

Some of these changes are reversible, but others are irreversible.

Complete using these words:

MATTER CANNOT GAS STATE
SOLID CHANGE LIQUID DESTROYED

The universe is
made up of

Matter
has 3
states:

Matter _____ be created
or _____. It can only
_____ from one form or
_____ to another.
