

## **Bill of Rights 5-8**

1) Jose is arrested for assault, tried by a jury, and found not guilty of the charges. He is then free to go. A few days later, the police arrest Jose again, explaining that he is to be retried on the same charges because a new witness has come forward.

3) Shanice claims that a store cheated her out \$800 by selling her washing machine that didn't work and refusing to accept a return. She sues the store for damages and asks the judge for a jury trial. The judge tells her it would be a waste of time, and he says he will settle the matter himself.
