WORKSHEET

Unit 5_Fresh food (Reading)

Read the following text.

Up the wall and on the roof

Would you like to grow fruit and vegetables, but you don't have big yard? Look up! There is lots of space. You can grow food up the walls or even on the roof!

Growing vegetables up a wall is easy. Choose a sunny place and choose plants that climb. Peas and tomatoes are good choices.

"Roof gardens" are great because you can grow lots of different vegetables and fruits. In one roof garden, a class of children grew 453 kg (1,000 pounds) of vegetables in one year. The children grew cabbages, carrots, lettuce, and even strawberries! They enjoyed the fresh food they grew in their outside classroom.

*** Circle T (True) or F (False).**

1. The text is about growing fruit and vegetables. **T** **F**

2. You can only grow food in a garden. **T** **F**
