

Tiger 5 Unit 6 Story

The jetboat and the crocodile

- Where does the jetboat stop?
- What do the children throw at the crocodile?

1 Mosa, Abri, John and Baruti are on a school trip to Victoria Falls.

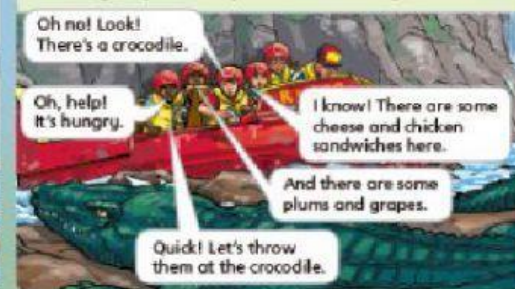

2 The children get into the jetboat. At first they go slowly down the river towards Victoria Falls.

3 Suddenly the jetboat's engine makes a loud noise and goes faster. It speeds up the rapids towards the waterfall.

4 Suddenly the jetboat stops on a rock. The engine is broken.

5 The children throw the sandwiches and fruit at the crocodile. But the crocodile doesn't eat them or go away.

6 The children wait for the helicopter. They're scared. The crocodile is near the boat. Suddenly Abri sees something.

7 Three hours later ... the crocodile is still near the boat. It's dark and the helicopter still isn't there.

8 The crocodile swims closer. The children are very scared. Suddenly they hear a noise and look up at the sky.

9 Everyone climbs into the helicopter. There is a full moon.

Do you know...?
The local name for Victoria Falls is 'the smoke that thunders'. You can see the 'smoke' and hear the 'thunder' from 80 kilometres away.

1.- **Drag and drop.** [Arrastra las palabras a su lugar para completar las frases]

crocodile

Victoria Falls
