

GUIDED TOUR REVIEW

★★★★★ Five stars!

The walking tour is great. We
1 [redacted] it completely by
2 [redacted] a few years ago,
and we were so glad we did. Now
we recommend it to everyone! This
year's tour is different and the new
3 [redacted] version is even better!
It's so much fun to imagine you are
standing in the exact spot where
4 [redacted] struck or where a
scientific 5 [redacted] was reached.
Some of the places are easier to

find because tourist plaques have
been 6 [redacted] to tell you the
history, but the tour includes lesser
known places, too, and the guide
7 [redacted] the route so that it's
a well-organised tour. It's amazing to
think of all the 8 [redacted] that
have come out of London over the
years – and many of them are still
9 [redacted]. (Though I don't think
you can 10 [redacted] a telegraph
message any more!) We love the tour,
and so do our kids. I think experiencing
something is a really 11 [redacted]
and fun way to learn and remember it!
