

# Shadows and light.

no straight closer all little further size  
shape blocks

Light always travels in a \_\_\_\_\_ line.

A shadow appears when an object \_\_\_\_\_ the light.

Shadows can change \_\_\_\_\_ and \_\_\_\_\_.

Shadows grow bigger when the light is \_\_\_\_\_.

Shadows grow smaller when the light is \_\_\_\_\_.

Opaque objects let \_\_\_\_\_ light through.

Translucent objects let a \_\_\_\_\_ light through.

Transparent objects let \_\_\_\_\_ light through.
