**Parts of a Plant**

**Task 1** - Label the parts of a plant and write how each of the part help the plant to grow.

The diagram shows a tulip plant with the following parts highlighted by dashed boxes:

- Flower:** A red tulip flower at the top. An empty box is to its left, and a text box to its right says "It helps the plant" followed by a blank line.
- Stem:** A green stem in the middle. An empty box is to its left, and a text box to its right says "It helps the plant" followed by a blank line.
- Leaves:** Two green leaves at the bottom of the stem. An empty box is to their left, and a text box to their right says "It helps the plant" followed by a blank line.
- Roots:** A brown bulb with fibrous roots at the bottom. An empty box is to their left, and a text box to their right says "It helps the plant" followed by a blank line.

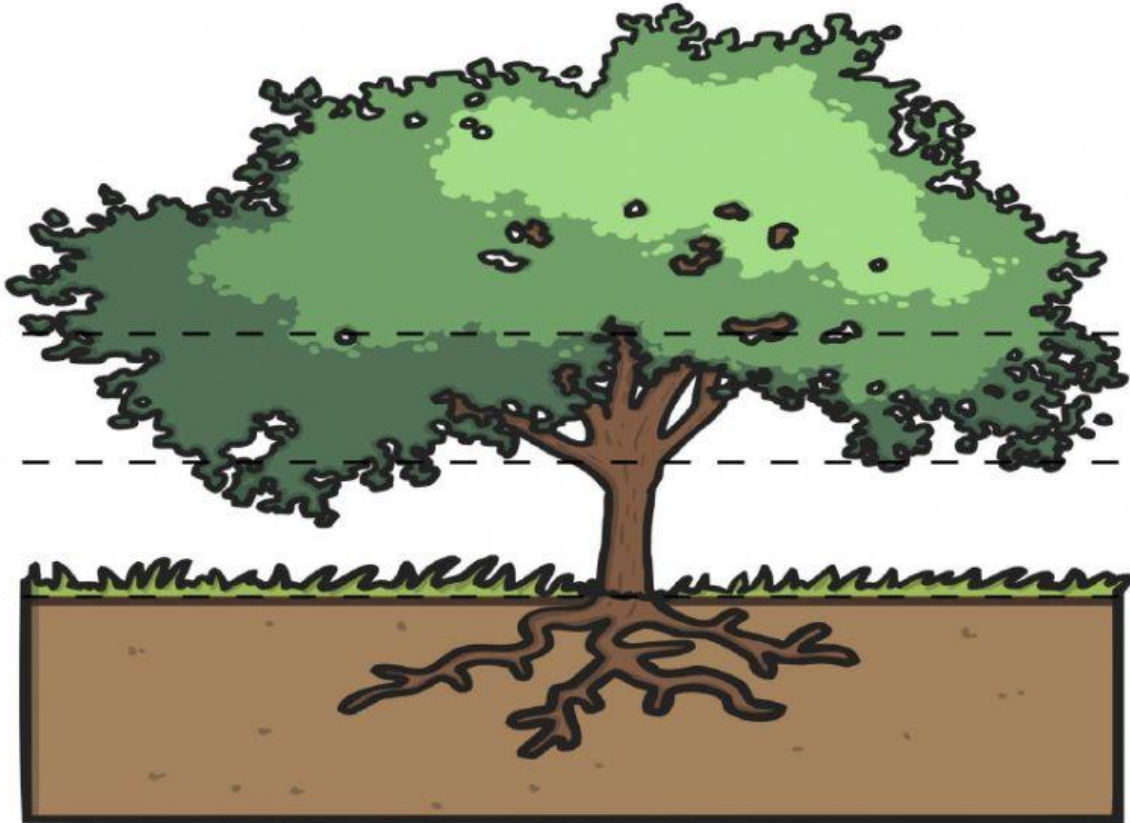

At the bottom of the dashed box, there are four labels: "flower", "stem", "leaves", and "roots", each with a vertical line pointing to its corresponding part in the diagram.

Task 2 - Label the parts of a tree with the help of the keywords given below -

## Parts of a Tree

*I can look closely at plants and trees and record what I see.*

Label the parts of a tree.

leaves

branches

trunk

roots

What is the difference between a plant and a tree that you have observed?
