How can I make a pencil case?

Instructions: Watch the video "*How can I make a pencil case?*" and according to this, fill in the gaps.

Materials:

2 f__a___ s__e__ts	__ci__o__s	A __l__ g__n	m__r__er_	s__lic__ne s__ic_	r___er	__elcr__

Activity 2.

Instructions: Watch the video again and according to this, order the sentences using numbers (1-12).

And finally, glue the velcro with hot glue and press for a while.	
Then, cut one of the ends into a curve	
Now, cut a small curve only on the front side of the pencil case and measure its length on the other foamy sheet.	
Subsequently, cut the marked strip, remove the excess and cut one end with rounded edges.	
First, cut a rectangle of foamy measuring 22 centimeters by 21.7 centimeters.	
Next, decorate your pencil case as you wish.	
Next, hot glue the two ends together and wait a few minutes for them to dry.	
Measure the width of the pencil case and mark it with a pencil on the other foamy sheet.	
Second, bring the two ends to the center and place one on top of the other.	
After that, bend the other part and press until it sticks completely.	
Then, glue the other end to the back of the pencil case.	
Fifth, bring one of the parts to the inside and put enough silicone on it.
