

# SEMESTER 1 TEST

## GRADE 4 MATH

School name: Lam Son

Student name: \_\_\_\_\_

Class: \_\_\_\_\_

### I. Choose the correct answer (6 points)

#### 1. Choose the number in which the digit of 6 has the value of 6,000

- A. 34,678
- B. 364,079
- C. 236,534
- D. 1,635,349

#### 2. Choose the correct answer:

- A.  $60,245 > 620,425$
- B.  $60,245 < 620,425$
- C.  $60,245 = 620,425$
- D.  $620,245 < 602,245$

#### 3. Choose the correct answer:

- A.  $84,483 > 845,483$
- B.  $854,483 < 45,483$
- C.  $85,483 = 845,483$
- D.  $845,483 > 85,483$

## SEMESTER 1 TEST

### GRADE 4 MATH

**4. Arrange these numbers from least to greatest:**

*834,255; 8,843,255; 84,522; 8,522*

- A. 8,522; 834,255; 84,522; 8,843,255
- B. 8,522; 84,522; 834,255; 8,843,255
- C. 8,843,255; 834,255; 84,522; 8,522
- D. 84,522; 834,255; 8,843,255; 8,522

**5. Arrange these numbers from greatest to least:**

*95,723; 958,732; 5,723; 1,985,732*

- A. 5,723; 95,723; 958,732; 1,985,732
- B. 95,723; 5,723; 958,732; 1,985,732
- C. 1,985,732; 958,732; 95,723; 5,723
- D. 958,732; 5,723; 95,723; 1,985,732

**6. There are 15 sacks of beans, each sack of beans is 60 kg.**

**How many kilograms of bean are there in all?**

- A. 900 kg
- B. 850 kg
- C. 800 kg
- D. 750 kg

## SEMESTER 1 TEST

### GRADE 4 MATH

#### II. Write in numbers (2 points)

*Example:*

*Three thousand six hundred and eighty – one*      **3,681**

a) Forty – two thousand seven hundred thirty- six      \_\_\_\_\_

b) Sixty thousand two hundred five      \_\_\_\_\_

#### III. Write in words (2 points)

*Example:*

*3,681      Three thousand six hundred and eighty-one*

a) 11,200      \_\_\_\_\_

b) 304,561      \_\_\_\_\_
