WHY DO WE LEARN HISTORY? LYRICS

STUDENT:

Um, sure, question, why we gotta learn about ?

When all these facts you spitting I can find by googling

Like why I gotta know the dates of the

When I can hop up on and type it in in two seconds, ok huh?

Moreover, your lesson's kinda boring me

Who cares about these wars and that came way before me?

I'm going to take the next hour to catch up on some more sleep

Go on and ignore me, wake me if I'm snoring,

TEACHER:

Look, I get why you think history is kind of boring

We often don't put it in context or explain the importance

Giving you quizzes like, "Which date? What ?"

Which has no impact on your long term career,

I feel you but history ain't about knowing facts

It's about solving of today, where we're at

And understand our grandparents, their impact on today learning from good ideas and not repeating

And maybe you're like, "Cool, but what's this gotta do with me?"

Dude, you're the of our entire species

With the freedom to read into past historic decisions

And determine how to proceed so progresses, my brother
