

Área de figuras geométricas

Obtén el área de las siguientes figuras geométricas

15 cm

$$\text{Área} = L \times L$$

$$\text{Área} = \boxed{} \text{ cm}^2$$

9 cm

37cm

$$\text{Área} = b \times h$$

$$\text{Área} = \boxed{} \text{ cm}^2$$

19cm

42cm

$$\text{Área} = \frac{b \times h}{2}$$

$$\text{Área} = \boxed{} \text{ cm}^2$$

$$\text{Área} = b \times h$$

$$\text{Área} = \boxed{} \text{ cm}^2$$

$$\text{Área} = \frac{B + b \times h}{2}$$

$$\text{Área} = \boxed{} \text{ cm}^2$$

$$\text{Área} = \frac{D \times d}{2}$$

$$\text{Área} = \boxed{} \text{ cm}^2$$
