

Name:

1. Mikiah has \$1.80 in pennies. Which equation shows how many pennies Mikiah has?
- A. $1.80 \div 0.1 = 180$ pennies B. $1.80 \div 0.1 = 18$ pennies
C. $1.80 \div 0.01 = 180$ pennies D. $1.80 \div 0.01 = 18$ pennies

Answer:

2. Marie walks 18.5 miles in 10 days. If she walks the same about each day, how many miles does she walk each day?
- A. 0.185 mile B. 1.85 miles
C. 8.5 miles D. 185 miles

Answer:

3. Choose whether each equation is True or False.

	True	False
$35.4 \div 0.01 = 3,540$		
$569 \div 100 = 5.69$		
$93.4 \div 0.1 = 9.34$		
$30.2 \div 10 = 3.02$		
$4 \div 0.1 = 0.4$		
$27 \div 100 = 0.27$
