

# MONERA KINGDOM

Investigate about the Monera Kingdom.  
Choose and circle the right answer.

- 1 They are unicellular / multicellular organisms.
- 2 They have got prokaryotic / eukaryotic cells.
- 3 They can be autotrophic and heterotrophic/ autotrophic / heterotrophic.

Join the words with the correct answer.

- |                 |   |
|-----------------|---|
| Unicellular •   | • when living organisms feed on other living organisms.                               |
| Multicellular • | • are made up of more than one cell.  |
| Prokaryotic •   | • They have got a NUCLEUS.  |
| Eukaryotic •    | • are made up of ONE cell.  |
| Heterotrophic • | • They don't have a NUCLEUS.  |
| Autotrophic •   | • when living organisms obtain the nutrients from water, carbon dioxide and sunlight. |
