

Name: \_\_\_\_\_

### Click here for onion root activity

Read the introduction, and then click the "next" button. You will have 36 cells to classify. Copy the following chart and record your data in it.

	Interphase	Prophase	Metaphase	Anaphase	Telophase	Total
Number of cells						36
Percent of cells						100%

(Calculate: number of cells divided by total cells x 100)

If you don't have a calculator you can click on [THIS ONLINE CALCULATOR](#). A window with a virtual calculator will open and you can do the math from there.
