today      yesterday      now      at this time      last week      in the past  
 on weekends      every day      2 day ago      in 1992

ให้นักเรียนอ่านบทความในหนังสือ P.78 แล้วปิงเล่นจับคู่หัวข้อที่กล่าวถึงในแต่ละบ่อหน้า

- The emperor & the people
- Free time
- Education
- Location
- Houses
- Food
- Transport
- The end of the Aztecs
- How it started

# The AZTECS

1 The Aztecs lived in what is now central and southern Mexico. They ruled a large empire from the 14th to the 16th century. Tenochtitlan was the most important city in the empire. They built it in 1325 on an island where Mexico City stands today.

2 Their emperor was the head of the empire. He controlled it with his powerful army. The Aztec people were farmers, craftsmen and merchants.

3 They grew vegetables and fruits, hunted for animals and went fishing. They ate corn, avocados, tomatoes, meat, fish and chilli peppers.

4 Most Aztecs made their houses from mud and bricks. They also built pyramids.

5 They used boats to transport goods. They usually travelled on foot.

6 All children went to school. They learnt history, myths and religion. They respected their teachers.

7 The Aztecs played music, danced and wrote poetry. Children played a game similar to basketball and soccer.

8 The Spanish conquered the Aztecs in 1521. Diseases like smallpox killed most of them.
