Lesson Objective:
- State ways, in simple statements, on how to manage waste.

Step to Success:
- Identify types of waste/trash
- Use 'be' as a verb in sentence
- Use present simple tense

Starter

Thinking time:

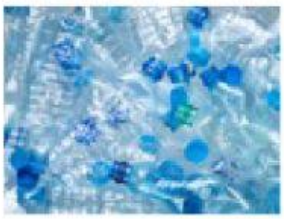

What will happen if everyone keep on throwing a lot of trash all the time?

Now, take a look at the trash you have thrown away. Which of them do you think can be used again?

Today we are going to write simple statements on how to manage our waste. Look at the pictures of different waste below and think of how we can keep and use them for different purposes.

LIVEWORKSHEETS

Write **THREE simple statements** on how to reuse or repurpose the waste so we do not have to throw them away.

Remember to write in present simple tense.

example: <u>You can turn old clothes into doormat.</u>
