## Environment at the community level

We should keep our surrounding areas clean too. The common places should be kept clean and pleasant for everyone.

Keep public places clean.

Grow more trees in the community.

Join environmental campaigns such as water conservation and garbage collection activities.

Educate others to make them realise how to keep good health and prevent diseases.

Enforce strict regulations to safeguard our environment.

| To educate people | Trees produce oxygen | In a temple to pray |
| In a court of law | Throwing away trash | environmental campaigns |

Q1: What does the boy at (1) do?

Q2: Why is it a good idea to grow more trees?

Q3: Promoting the conservation of water and collecting garbage are examples of what?
