

Maze Practice

Dinosaurs

Long ago dinosaurs _____
on the Earth.

They _____ very very big.
Look at these big _____.

Some _____ long legs and tails. Some had sharp
teeth and _____ to climb the tree. Some _____
plants. Some hunted other animals.

But they are not around today. All that is left is
their bones.

Scientists dig the Earth to find dinosaur bones and
_____. They make copies of the bones and put
them together in the museum so we can _____
what they were like millions of years ago.
