Bats and Birds

Both bats and birds can fly.
You might see them on a rooftop.
In other ways, bats and birds are very different.
Birds have feathers. Bats have fur.
Birds have beaks. Bats have teeth.
Bats hang upside-down when they rest.
Birds never do that!
Bats and birds are very easy to tell apart
when they are not flying.

Find what is similar and what is different between bats and birds. Put each phrase in the correct place of the Venn diagram.

beaks

wings

teeth

an animal

feathers

can fly
