Number 14- Addition and Subtraction

Solve the word problems. Type your number statements.

1. The dog has **14** balls. He buries **7** balls.

How many balls are left?

2. Josiah has **11** sweets. Princeton gave him some more.

Then, he had **14** sweets in all.

How many sweets did Princeton give Josiah?

$$11 + \underline{\quad} = 14$$

3. There are **14** books on the shelf.

If Saydee reads **9** books.

How many books are left to read?

4. Ojahri has **6** toys. His granny gave him some more.

Then, he had **14** toys in all.

How many toys did granny give Ojahri?

$$6 + \underline{\quad\quad} = 14$$
