

Name: \_\_\_\_\_

## The Human Life Cycle

Drag the stage of the human life cycle next to the correct ages.

|           |           |         |             |
|-----------|-----------|---------|-------------|
| adulthood | childhood | infancy | adolescence |
|-----------|-----------|---------|-------------|

1. Birth to two years \_\_\_\_\_
2. Three to ten years \_\_\_\_\_
3. Eleven to eighteen years \_\_\_\_\_
4. Nineteen and older \_\_\_\_\_

Read each activity, then select the stage of human growth at which it typically happens.
