2 **Read** Ahmed Al Shamsi tells us about his job. Read and answer the questions.

Ahmed Al Shamsi tests water slides and rides for his job. But this fun job is actually very important. He tests the water slides to find out if they are safe for families to use. He looks at how fast the water comes down the slide and that it is not dangerous. He must make sure everything works safely. Ahmed has to understand how the water slide is built so if something doesn't work he can tell the builders about the problem. To do a job like this, you need to be good at maths and science and know how things are built and what happens when people use them.

1 Ahmed's job is not fun. **True/False**

2 He needs to know how fast the water goes. **True/False**

3 He uses maths in his job. **True/False**

4 He builds water slides. **True/False**

5 In his job, Ahmed looks for things that can make water slides ***dangerous/fun*** for families to use.

6 To do Ahmed's job you need to ***build things yourself./know how other people build things***.
