Look at the image and answer the question.

What can you see in the picture?

Read and develop the activities

Spanish colonial art includes paintings, sculptures and decorative objects produced across one and a half continents, from Mexico down to South America, over a period of about 330 years. (Artworks produced in Brazil during this period are referred to as Portuguese colonial art.) All art and objects from this region that precede Christopher Columbus's arrival in the New World in 1492, marking the beginning of the European conquest, are termed pre-Columbian.

The Spanish colonial period ends around 1820, when Spain began to lose its grip on its colonies in the New World and independence was won by many of today's Latin American nations.

A) Find the following words in the reading and order the letters.

_ _ _ _ _

The architecture

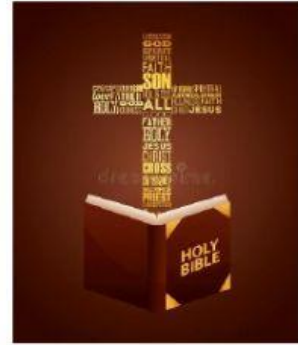

Another expression of colonial culture was architecture, particularly religious. Since its foundation, large churches and convents were built in the cities, whose style and forms of construction were of European influence, although they had elements of indigenous cultures.

Read again and complete the missing words in each gap.

Another expression of _____ culture was _____, particularly _____. Since its foundation, large _____ and convents were built in the cities, whose style and forms of construction were of _____ influence, although they had elements of _____ cultures.

What does Spanish colonial art look like?

Because of its incredibly broad scope, Spanish colonial art cannot be defined by any one particular style, subject or form. One can find a preponderance of depictions of Virgins and saints, attesting to the spread of Catholicism in the region, but often these come with a distinctly regional flavor.

saints

Catholicism

Virgins
