

## FOOD, GLORIOUS FOOD. Reading.

Read and choose.

### Chopsticks

People in Asia use many different things to eat with, for example hands, spoons, forks, knives and chopsticks.

Chopsticks can be big or small. Most Chinese chopsticks are about 25 cm long. For cooking, they also use longer chopsticks, which can be more than 50 cm long. In Japan chopsticks are shorter and they come to a point at one end.

Chopsticks are made of a number of materials, but most are made of wood or plastic. A long time ago they put silver on the end of the chopsticks.

### Things you should or shouldn't do when you eat with chopsticks

- Do not move your chopsticks around.
- Do not pick food up by making a hole in it with your chopsticks.
- Do not pull dishes towards you with chopsticks. Use your hands.
- Pull dishes close to you when eating. Put them back after you use them.
- You can lift your dish up to your mouth to eat small pieces of food.

1 Chopsticks are always long.

Yes

No

2 They are the same size in Japan and China.
