

Danit's Blog

A Special Saturday

I live in Israel. I want to tell you about a special day, when me and my family celebrate birthdays in our family.

Every second Saturday in a month when there is a birhday we celebrate. We go on a special adventure and we do special things like: ride horses, go to an Escape room, eat in a special restaurant and more...

Who decides what?

If it's my birthday, I will pick the activity which we will do for example on my last birthday I chose a big picnic in the park. Each one of us choose the activity he likes the best for his birthday.

What happens if we are more than one?

When we are two or more members from the family with our birthday date close, we sometime plan two activities or we sit and decide together which activity is the best.
