

PERCENTAGES

Goal of teaching

The students are able to :

- Understand percentage as the number of part in every 100
- Express parts of a whole as a percentage.
- Find percentages of shapes and whole numbers

Percent (%)

Amin has 100 marbles. He gives 50 marbles to Aldi.

Since 50 out of 100 are given to Aldi, we can say that 50% of the marble are given away to Aldi.

% stands for percent and it means "out of 100".

So, 50% means 50 out of 100.

We read 50%
as '50 percent'

Exercise

- Express each of the following as a percentage.
 - 17 out of 100 _____ %
 - 33 out of 100 _____ %
 - 46 out of 100 _____ %
 - 97 out of 100 _____ %
- There were 100 mangoes. If 52 of them were ripe, what percentage of the mangoes that are ripe? _____ %
- Azka had \$100. If she spent \$36, what percentage of her money did she spend? _____ %
- Amin has 100 stamps. If 65 of them are local stamps. What percentage of the stamps is local stamps? _____ %

Try more...

1. What percentage of each figure is shaded?

2. Find the value of each of the following.

a. 10% of 300 _____

b. 25% of 40 _____

b. 50% of 1400 km _____ km

d. 75% of 200 g _____ g

3. Mr. Afandi had \$1500. He spent 30% of his money on a wallet.

How much did the wallet cost? \$ _____
