

SCHOOL and LEARNING

Student Name:

This week, we will talk about school and learning new things.

I love learning new things, like recipes, languages, culture and history. I like taking classes. When I study, I like to sit at a desk and I prefer to have a book. How about you?

1. Do you like learning new things? What things do you like learning about?	2. What do you want to learn in class?
3. Where do you like to study? (Ex. at school, at home, at a desk, ...)	4. When you learn, do you prefer to listen to a teacher, read a book, or use a computer?
