.....Than the Empire State Building.

5. The area of a rectangle is the .....multiplied by the .....

6. The gold mines of South Africa go down to a maximum ..... of 3,500 m.

4. Giving opinions

Three managers are discussing the best location for a new car assembly plant. Choose the correct alternative from the expressions in italics.

A: So we have three possible locations – Ireland, north Italy or the north – east of France. What's your *think / view* on this?

B: Well, *I think Ireland isn't/ I don't think Ireland* is a good choice because it's too far from the rest of Europe. *In/to* my view, Northern Italy would be better.

A: *How/What* do you think, Lucy?

C: *I/I'm* agree with Des when he says that Ireland isn't really a possibility. But *I'm not / I don't* agree that Italy is the best choice. If you ask *me/to me* north-east France is the ideal location. It's much better placed for the Scandinavian market, which represents 40% of our sales.

A: Yes, you *have/are* right, Lucy. But don't forget that a lot of our parts come from Romania and Turkey. Personally, *I think/ I'm thinking* it's better to be near our suppliers.

B: Yes, I think *it/so* too. That's why I prefer Italy.
