

One Step Equation

Solve each equation.

1) $26 = 8 + v$

$$26 - 8 = v$$
$$v = \underline{\underline{18}}$$

2) $3 + p = 8$

$$p = 8 - 3$$
$$p = \underline{\underline{5}}$$

3) $15 + b = 23$

4) $-15 + n = -9$

5) $m + 4 = -12$

$$m = -12 - 4$$
$$m = \underline{\underline{-16}}$$

6) $x - 7 = 13$

7) $m - 9 = -13$

8) $p - 6 = -5$
