VI. Read the following passage and choose the correct answer to each of the questions.

AFTER-SCHOOL ACTIVITIES

Why don't the schools offer more after-school activities for students? Schools have the perfect set up to provide more opportunities for students to participate in healthy and meaningful activities. These activities would help keep students involved and exercising. Children do not have enough free activities available to them.

The school doesn't need to spend money to accomplish this proposal. The money has already been invested. The baseball fields and the gymnasiums in the schools should be put to good use. These facilities are not being used to their full potential. The school could easily offer activities such as baseball, basketball, volleyball, football, soccer, and running clubs.

The school could charge a nominal fee for students. The funds would go to providing a supervisor or coach. Parent volunteers could be recruited. If desired, schools could charge extra for craft, cooking, and art classes to allow more children the opportunity to participate. This proposal would not only help the children in getting their much-needed exercise, but it would also give the school a more positive image in the community.

(adapted from Daily Warm-ups Reading Grade 5)
