

## Reading Activity

# Warm and Cool Colors

There are two different kinds of colors: warm colors and cool colors. Red, yellow, orange and brown are warm colors. We see many warm colors on a sunny day in the summer or fall. Blue, green, purple and gray are cool colors. We see many cool colors on a cloudy day in the spring or winter. What's your favorite color? Is it a warm color or a cool color?

a. Read and answer the questions.

1. How many kinds of colors are there? \_\_\_\_\_
2. What are the warm colors? \_\_\_\_\_
3. What are the cool colors? \_\_\_\_\_
4. When do we see warm colors? \_\_\_\_\_
5. When do we see cool colors? \_\_\_\_\_

b. Write T for true and F for false.

1. Blue is a cool color. \_\_\_\_\_
2. Red is a cool color. \_\_\_\_\_
3. Gray is a warm color. \_\_\_\_\_
4. Orange is a warm color. \_\_\_\_\_
5. Brown is a warm color. \_\_\_\_\_
