

Practice 4 Solving Word Problems

1. Norah bought 5 scooters for \$55 each and a bicycle for \$385. How much did Norah spend altogether?

Working

Method
1

$$\text{\$} \underline{\hspace{2cm}} \bigcirc \underline{\hspace{2cm}} = \text{\$} \underline{\hspace{2cm}}$$

Norah spent $\text{\$} \underline{\hspace{2cm}}$ on the 5 scooters.

$$\text{\$} \underline{\hspace{2cm}} \bigcirc \text{\$} \underline{\hspace{2cm}} = \text{\$} \underline{\hspace{2cm}}$$

Norah spent $\text{\$} \underline{\hspace{2cm}}$ altogether.

Method
2

$$\text{\$} \underline{\hspace{2cm}} \bigcirc \underline{\hspace{2cm}} \bigcirc \text{\$} \underline{\hspace{2cm}}$$

$$= \text{\$} \underline{\hspace{2cm}} \bigcirc \text{\$} \underline{\hspace{2cm}}$$

$$= \text{\$} \underline{\hspace{2cm}}$$

Norah spent $\text{\$} \underline{\hspace{2cm}}$ altogether.
