

Circumference and Area of Circles

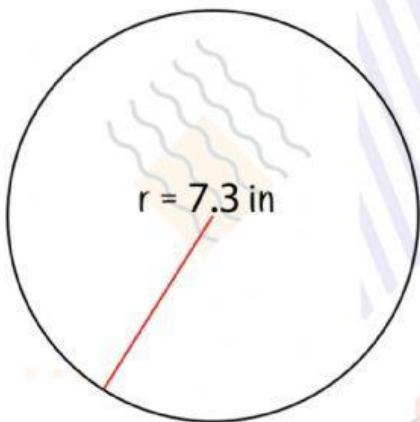

Instruction: Find the area and circumference. Circumference = $2\pi r$ and Area = πr^2

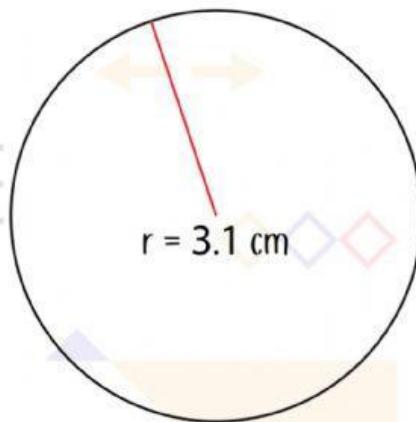

$$\text{circumference} = \underline{\hspace{2cm}} \text{mm} \quad \text{area} = \underline{\hspace{2cm}} \text{mm}^2$$

$$\text{circumference} = \underline{\hspace{2cm}} \text{cm} \quad \text{area} = \underline{\hspace{2cm}} \text{cm}^2$$

$$\text{circumference} = \underline{\hspace{2cm}} \text{in} \quad \text{area} = \underline{\hspace{2cm}} \text{in}^2$$

$$\text{circumference} = \underline{\hspace{2cm}} \text{cm} \quad \text{area} = \underline{\hspace{2cm}} \text{cm}^2$$
