Sustainable House

Hi, my name's Peter and this is my wife Mary. Several years ago we decided to build a house that made as little impact on the environment as possible. So we built Sustainable House. We collect our own rainwater and produce our own electricity through solar panels on the roof. We also grow our own fruit and vegetables in the garden. We're open to the public every Tuesday and Thursday from 5 till 8 p.m. Come and let us show you around. Maybe one day you'll want to build a sustainable house of your own!

Hey Jenny,

I just saw this advert for a cool place for a visit over the summer holidays. It's an ecological house that does tours where they explain how they built the house and how everything works. And it's free! I called them and they said we could go this Thursday at 6 and they can show us everything in an hour. My dad said he'd go with us. We could meet at meet at my house at 5:45. It's a ten-minute walk from here. Are you interested?

Yours, Sam
