

My future city

This is my future city. It will be located somewhere next to the Big Basin Redwoods State Park. It will be big and clean. Many people will live there. It certainly will have a couple of animal parks and normal parks for kids to enjoy. It will have strict and clean laws and fines. One of them is no air pollution. People will travel with robot cars, airplanes, helicopters, and others. They will gain energy with solar panels, windmills, and water machines that find water and clean it underground. And finally, jobs. People will be chemists, scientists, or policemen. Some will be ambulance workers or firefighters.

Answer the following questions.

1. Where will the city be located?
2. Will the city be dirty and small?
3. Who will work at the city?

Examples for the sentence “Alex will make dinner tonight.”

Negative: Alex will not make dinner tonight.
