

By \_\_\_\_\_

Today \_\_\_\_\_ something that scientists once only dreamed about came true: \_\_\_\_\_  
astronaut went \_\_\_\_\_ in the spacecraft called \_\_\_\_\_.  
He \_\_\_\_\_ while millions of people waited anxiously for good news.

This amazing journey \_\_\_\_\_ in \_\_\_\_\_ took about \_\_\_\_\_ to complete. On board was \_\_\_\_\_ courageous astronaut: \_\_\_\_\_, a \_\_\_\_\_ year old \_\_\_\_\_ who has been training for months for this hazardous journey in space.

The world watched and waited for almost \_\_\_\_\_ while \_\_\_\_\_ was travelling at the speed of \_\_\_\_\_ around the Earth into the unknown space. His first words were:  
“ \_\_\_\_\_ ”. It was almost

incredible. A man was actually in space! The world heard him describe the Earth as a \_\_\_\_\_.

\_\_\_\_\_ then took photos of the Earth. After more than \_\_\_\_\_ in orbit, the spacecraft entered back into the Earth's atmosphere and prepared for landing. He \_\_\_\_\_ and using a \_\_\_\_\_ landed safely \_\_\_\_\_ where he was greeted by his co-nationals as a hero.

For the first time in mankind's history, men have left the Earth and entered the unknown space. They have looked at their planet from miles away. What was once a dream has actually happened.
