

## ONLINE EDUCATION

### Task 1

Read the text below. Choose from (A-H) the one that best fits each space (1-6). There are two choices you do not need to use.

#### ADVANTAGES OF ONLINE LEARNING

1. \_\_\_\_\_: From traditional four-year universities to completely online career colleges, higher education today offers an array of options for students. This means that no matter what students study, from nursing to neuroscience, they can find the courses or programs they need online. Students can also earn every academic degree online, from a career certificate to a doctorate.
2. \_\_\_\_\_: Online programs prove a more affordable option than traditional colleges. Though not all online degrees offer less expensive net tuition prices than traditional colleges, associated expenses almost always cost less. For example, there are no commuting costs, and sometimes required course materials, such as textbooks, are available online at no cost.
3. \_\_\_\_\_: Commercially that feature online students studying in their pajamas only skims the surface of one of the benefits of online education: no physical class sessions. Students listen to lectures and complete assignments sent to them electronically, with no need to fight traffic, leave work early for class, or miss important family time.
4. \_\_\_\_\_: Online courses give students the opportunity to plan study time around the rest of their day, instead of the other way around. Students can study and work at their convenience. Course material is always accessible online, making special library trips unnecessary. All of these benefits help students balance work and family commitments with their education.
5. \_\_\_\_\_: Online courses offer shy or more reticent students the opportunity to participate in class discussions more easily than face-to-face class sessions. Some students even report better concentration in online classes due to the lack of classroom activity.
6. \_\_\_\_\_: Students can take online courses and even complete entire degrees while working, while in-between jobs, or while taking time to raise a family. This academic work will explain any discontinuity or gaps in a resume as well.
